

## A Ghost, A girl, and a tree

it's a great invention but we're underfed  
gather, gather people alone  
and then erupt a crypt  
yeah, follow the ghost.  
give 'em an inch, he's gonna make a mile  
take the frown and just make up any old smile

these people roam the town  
in search of friends that might never be found  
on a canvas spread that will wash you down  
I ain't filling out your forms, I ain't playin' anymore  
you know that it's time to exit through the door.

A basic ending with some holding grit.  
enter at the point of a ghost, but never polish in.  
it's always a joke.  
even the best have got the "wild runs wild",  
everything else is underneath a corporate pile.

she activates the sound.  
It occurs to her that she wouldn't get out.  
this is the plan that would make it all about.  
All the things she wanted from, all the things she wouldn't give, all the things that make her  
exactly who she is.

I will break a speech to help you  
make it part of something that I do  
all the trains are slowly going home

taking lessons on depending  
on the sacred never-ending  
rhythm of your breathing in & out.

faking has no other ending  
why don't you just think of dancing  
why don't we just take the talking out

Jumpstart all the cars in vegas  
let them all come on, invade us.  
shake the bugs out, climb a taller tree.

## Go for it

The week is gone already  
my wrists are soaked in the blood of chekere  
a hit single I heard somewhere  
yeah my spliced ankles keep me here

praying deep for extra luck  
I will slowly pace in the back  
I am passing mindless through the kitchen  
I smell the alcohol

I found my way through all of this  
it turns out it was the way that I was going  
Celina paces back and forth  
her head is heavy in her hands  
she holds very very very heavy head in her hands

as I'm driving back to my home  
I slip back into all that has happened  
Turn around and there we are  
all things will pass exactly the same

now I am home already  
sleeping comes. sleep is here  
I will sleep until thursday  
no need to wait for anything

## Into the vague Distance

sometimes you're the void  
sometimes you're the voice  
sometimes you don't have a choice.  
sometimes you're with the wind  
you feel it on your back  
you know that it will guide you down the right path

When the seasons come  
they're here until they're done  
No can escape the living sun  
My heart is solid gold  
My lungs are strong to hold  
my breath while I walk across the stretched bridge

stretched like a rainbow across the great sky  
Why oh why can't I just fly  
over the obstacles out where I want to go  
into the vague distance where I know that you've gone  
the corridors howling my name in a song  
into the faint pinpoint, the veil lifts from my eyes  
everything I know will vanish in time.

I will walk today  
I choose to walk away  
the only way to grow is to change yeah  
you can ride along  
You can write a song  
It's easy when you leave your intentions aside

## Sweet home carrier bringer

There's no way to counter balance the love at stake  
When we saw the lights going out, I drowned in a lake

I got hit by a car in Miami and I was killed on the spot  
I was caught trespassing in the south, and for this I know was shot

I was mugged by ghost in my dreams after my wallet he took my life.  
I said the wrong thing in LA, it was there I was stabbed with a knife

I would die in Joshua Tree. My soul was drying out on the shelf.  
I must have fallen to my death in the canyon as I navigated by myself

I burned to death in my house in Val Verde, the flames re-engulfed where I sat  
I died in a plane crash on my way to new york, I could not have foreseen that...  
foreseen that.

-----

I feel pressure on my eyes I feel this in my temples  
I just stare at where fire used to be burning warm  
I don't zero on the cost because I can do what I want.  
I don't zero on the karma as I've seen that it can haunt

## easily (bruno major)

Don't you tell me that it wasn't meant to be  
Call it quits, Call it destiny  
Just because it won't come easily  
Doesn't mean we shouldn't try

We had a good thing going lately  
Might not have always been a fairy tale  
But you know and I know  
That they ain't real  
I'll take the truth over the story

You might have tried my patience lately  
But I'm not about to let us fail  
I'll be the wind picking up your sail  
But won't you do something for me?

Don't you tell me that it wasn't meant to be  
Call it quits, Call it destiny  
Just because it won't come easily  
Doesn't mean we shouldn't try

Coming and going  
Inside out, Back to front  
Oh, tangled and messy  
That's how we've been and we'll always be  
And that's alright with me

Don't you tell me that it wasn't meant to be  
Call it quits, Call it destiny  
Just because it won't come easily  
Doesn't mean we shouldn't try, try, try  
Just because it won't come easily  
Doesn't mean we shouldn't try

Just because it won't come easily  
Doesn't mean we shouldn't try, try, try  
Just because it won't come easily  
Doesn't mean we shouldn't try

## love on fire (jaron liclican)

Like a cigarette, you're blowin'  
I can feel it in the air.  
It's sinking in, it's holding  
My heart gets bigger when you're near

And I feel it comin'  
Yeah I feel it well  
And the feelin's burning

I feel it when we kiss  
I feel it with your body  
I feel it with my finger tips  
Ain't nothin' to dismiss  
Cuz we all want somebody  
It's not a mystery baby

That our love, that our love's on fire.

We're easing in slowly  
I think we're almost there  
We wake up in the morning  
And we do it all again.

I feel it when we kiss  
I feel it with your body  
I feel it with my finger tips  
Ain't nothin' to dismiss  
Cuz we all want somebody  
It's not a mystery baby

That our love, that our love's on fire.

## Real Version

three of them fell in the river  
taking turns killing myself,  
the third day of this gets boring  
I wanted to die on the beach in sun  
so I set up a ladder to get there

I mixed myself up a bottle  
full of dried blood with ash  
what came out was something new  
there was nothing left over in that  
and the empty bottle broke at my feet

I made tears today for linens  
clothing that would dissolve on your skin  
there was a naked soldier dead  
I counted up as far as I could  
he never worked again

great old people dying of cancer  
secrets that they learned that they never told  
I tied a knot and I can't undo  
I broke my leg when I fell from the tree  
who are you?

## Stuck backwards

Guarantee my sailing, I lift above.  
Make it written down, Kick it rolling on...  
It's freakin' me out, I love your mouth sounds.  
It's totally gone. That's what we paid for.

I am stuck here backwards.  
Don't you see that I've got flaws.  
don't give into elastic laws.  
It's forever all because.  
Show me your fantastic  
I need help in every way.  
I lost my sense of today.  
There's no reason why I say.

I'll just get a coffee. I'll just get more coffee.  
I just need a coffee. Would you get some coffee?  
Just go get a coffee. I would like some coffee  
C'mon grab that coffee. Let's go grab some coffee.

I am stuck here backwards.  
Don't you see that I've got flaws.  
don't give into elastic laws.  
It's forever all because.  
Show me your fantastic  
I need help in every way.  
I lost my sense of today.  
There's no reason why I say.

Just go get a coffee  
Just go get a coffee  
Just go get a coffee  
Just go get a coffee

## bouncer see bouncer (scott walker)

Spared, I've been spared all the nickling, all the dimeing  
Spared, I've been spared all the powder on a trumpet of Gabriel

Don't play that song for me...you won't play that song for me  
Don't play that song for me...you won't play that song for me

The riff with the swaddling hair  
Those sisters who never broke us  
The link missing at the rear  
and the halo, halo of locust

Mama danced four feet away, Papa danced four feet away  
in the rubbing and fusing, the sealing and pivoting  
gotta dance four feet away

Spared, I've been spared all the handles a body could handle  
Spared, I've been spared all the powder on a Magdalene Mary

Don't play that song for me...you won't play that song for me  
Don't play that song for me...you won't play that song for me

Those threads you would never wear  
The sobbing that just might choke us  
Those tooth fairies wait till they get here  
and the halo, halo of locust

I love this season without its cleft  
left hook to the right foot, right cross to the left  
I love this season this very night  
right cross to the left foot, Left hook to the right

Mama danced four feet away, Papa danced four feet away  
in the rubbing and fusing, the sealing and pivoting  
gotta dance four feet away

Spared, I've been spared all the nickling, all the dimeing  
Spared, I've been spared all the powder on a trumpet of Gabriel

## 2ndsqwht

Once upon a time, I thought of you  
then it became a wish that came out true  
why did it occur I'll never guess  
but without taking your turn it's emptiness  
What will be the worth? (I know)  
what will be the rules? (I know)  
what if heaven falls? what if hell erupts? What if I get lost?  
I'll think of you. What if we go on.....

Would you love me If I wrote this song out for you  
Would you love me If I dropped some acid  
Would you love me If I came from a building  
Would you love me If I told you I loved you  
Would you love me If I gave you more options  
Would you love me If I talked like I'm on stage  
Would you love me If I acted just I used to  
Would you love me If I told you I loved you

I am just waiting to open your letter....what if I don't catch you now  
I've know you're the best and I've known of your challenge...what if I don't catch you now?

I am thinking hard of things to say  
maybe if I try the words will stay  
so I will try my best to win the heart  
but if it's not enough, will it fall apart?  
It's hard to make a point!!! (I KNOW)  
it's hard to make some sense!!! (I know)  
it's hard to get involved, It's hard to get in style  
It's hard to get away...but I will try.  
What if we go on.....

## The Moment (Clinton Patterson)

The moon rises and the starlight falls  
How are we going to get above it all?  
The weather changes and the seasons come.  
How are we going to get around this one?

Spend your lifetime waiting.  
And the time it passes us by.  
But the moment you've been waiting for is each one.  
But the moment you've been waiting for is each one.

## Homonculus

Luckily she's a genius  
and all of her delicious is wild  
I didn't know about a lot of things  
I sure didn't know that we would collide

Waking everyday I find myself  
looking for somewhere I could rest  
I did not know about anything  
I do not know how to be the best.

You just got my attention  
by stealing all my personal stuff  
I do not know who it would benefit  
And I've think that you've got enough

I would be retarded to ignore  
what is clearly actual love  
know that we know what we're gonna do  
we can begin to behave like adults

## Uhope4Steak [Thirty Hamback]

With the world I am awake damn as early as I can, 4am,  
I'm sure there is a reason that you shot me,  
I am connecting now to Aki  
I'm one pollinated takko

dive in deep into exhaustion.  
Tired misty corona round the soul.  
you're such a discussion

When I come forward I am out of line as we combine my steps are misaligned  
I'm mis-prepared with tender love, I tend to carry the kind of touch that cries when you misplace  
a good foot from solid stair, a purse that's filled up with tiny tears.

fold into a new life.  
I am feel a bit behind the step  
Confused by conversations on the phone

I left the store before I bought  
I ran into someone I know  
I half listened then I drove away with nowhere to go

diving down into the dungeon  
Try to write it down before you fall asleep
